Measure: HB2002

I am writing in opposition to HB2002. I am against any of your attempts to turn children against their parents and divide families.

Minors are the responsibility of their parents or guardians. They are not mature enough to make such life altering decisions as would be allowed by this bill. Also, I find it ludicrous that abortions, tooth extractions, and other surgical procedures would be permitted without parent or guardian consent, but the minor could not obtain their first pair of contact lenses on his or her own. Vision correction is where we draw the line!
