

Submitter: Pamela Burton-Macauley
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

I urge you to support this bill that allows local governments to prohibit firearms in certain public buildings. As a member of the public, I -and all of us - deserve to feel safe when entering public buildings, without the fear that there may be concealed firearms on premises.

We also know that public servants can sometimes be the target of anger and gun violence. Let's not make that easier!
