

Submitter: Dev Chilson  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

I am a mother and will soon be a grandmother. I would like to live in a country that does not allow armed men in public venues. My adult children work in hospitals, my grandchild will spend days in daycare and pre-school. Must we really have plans to survive "active shooter" situations whenever and wherever we go? This is insane. Please pass this bill.

Sincerely,  
Dr. Dev Chilson
