

Submitter: Jonathan Greenwood

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

Hello,

I am writing to express my opposition to any measure that proposes expanding the Urban Growth Boundaries of metro areas in Oregon. Especially, in Portland, we need to be building dense infill and stop sprawl at the edges of the UGB. This will provide abundant housing and protect ecosystems from sprawl. Please do not expand the UGB ever again. Focus on infill of dense housing.

Thank you,

Jonathan Greenwood
