Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

When I first read this bill I thought it was a fever dream of Pol Pot.

Maybe the next thing Oregon Democrats will do is start executing anyone who wears eyeglasses and drive everyone into the countryside to starve to death.

But on closer examination it's clear that this is simply satanic.

Oregon Democrats have proven there really is no bottom to how depraved they can be. It's little wonder rational people are leaving in droves.

This is disgraceful even by the standards of the ruling party.
