

Submitter: Angela Nylund

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

We say aNo vote is required for this bill HB2002! This is a play to remove additional parental rights! Children do not belong to government. Children are not mature enough to make life altering decisions on their own. They cannot sign contracts, live on their own, can't purchase a weapon til 18, buy cigarettes or alcohol till their 21. Voters determined 21 was the age to make serious decisions! This is no different. Parents need to be included in a medical decision made for a minor. They are responsible for everything in their life until the age of majority! You are trying to destroy the family unit these types of bills! We cannot and will not support anyone who votes in favor of this bill!
