

Submitter: Stephen Nelson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

HB2005 will do nothing to slow the rapidly increasing crime rate in Oregon. It will not stop any criminal from making and/or importing the prohibited firearms. What it will do is strip more Oregonians of their constitutional rights. With no "grandfather clause" to cover citizens with legal firearms, it will create a whole new category of felons out of innocent citizens. This bill will only line the pockets of the attorneys who will spend years litigating it in the courts.
