

Submitter: Susie Dalessi

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am beyond appalled this bill is being considered as something that is good for our children. The research I have seen does not support the benefits to the mental or physical health of our children. This is just another way to funnel more money to the pharmaceutical industry that doesn't care about anyone's best interests. Please don't pass this abomination.
