

Submitter: Megan Terk

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am a resident of Central Point. I am part of an I am part of a larger organization of 7000 women locally and we oppose HB 2002 for its negligence toward Oregon's youth. Regardless of your religious beliefs, we all have a moral compass. Please do not let this pass. To pass a bill where a 10 year old can walk into an office and receive an abortion or a sex change operation without the knowledge of their parents & to force the citizens of the state to pay for it with their tax dollars is absolutely abhorrent on every level. Please reconsider. Please do not let this pass.
