

Submitter: Jim Pittenger
On Behalf Of: HB 2005
Committee: House Committee On Judiciary
Measure: HB2005

The existence of unidentifiable firearms undermines the entire legislative effort and all the legislation promoting greater gun safety. Further, ghost guns promote a criminal, outside the law, mindset. HB 2005 is sets a base, or foundation upon which effective gun safety legislation can be built. I urge the Committee to support this bill.
