

Submitter: Judith Sanders
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Chair Kropf, Vice-chairs Andersen and Wallan, and Committee Members,

I am writing in support to HB 2007 and urge you to support it as well. This bill authorizes certain public entities to adopt policies preventing concealed weapons licensees from using such licenses as an affirmative defense against regulations prohibiting weapons in such buildings. This is optional for local entities and would be consistent with their existing regulations that prohibit unconcealed weapons in these locations. This is an excellent idea because the public who enter such buildings and the people who work there have the rights to be free of acts of gun violence.

Sincerely,

Judi Sanders
