

Submitter: Sarah Anderson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I oppose this emergency attempt. It's a show, to prove how liberal the state is. Disregarded are the facts surrounding young children and transgenderism and the long lasting negative health impacts on their lives. Disregarded are suicide statistics amongst those who attempt to convert to the opposite sex. You're sterilizing a generation.
