

Submitter: Mary Chalkiopoulos  
On Behalf Of:  
Committee: Senate Committee On Health Care  
Measure: SB1046

I AM OPPOSED TO SB 1046.

This bill is designed to force insurance companies and businesses across the board to pay for "substance use disorder treatment" (aka treatment for drug use and abuse) and "reproductive health care and treatment" (aka abortion, mutilation, and sterilization). These two "needs" have been created by government policies and now private industry is supposed to pay the bill in the name of "doing good". Public policy has fostered the rampant drug use/abuse that has destroyed our people and our cities. Instead of focusing on reading, writing, and arithmetic our schools confuse and indoctrinate students to the point where they no longer know who they are and subject themselves to life-altering butchery. Why does our government insist on supporting policies that destroy the individual?

VOTE NO ON SB 1046!
