

Submitter: Benjamin Hudson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

In addition, I oppose this bill - HB 2022, as it DOES NOT protect children, already born and living and the yet-to-be born, and it is not healthy for the well-being of healthy families nor for establishing healthy individuals and families by encouraging children NOT to communicate and counsel with their parents in appropriate and healthy ways NOR to establish trust between children and their parents. Anyone who stands with God and Jesus Christ, Who stand for the health and safety and well-being of all families and children will OPPOSE this bill. I stand with God and Jesus Christ, Who died to save us all, that we might hope for and create a better world for ourselves and our children, as we repent and come unto God in the name of Jesus Christ for wisdom on how to attend to such matters appropriately. The state should stay out of this issue. This bill is overreaching in family matters it should stay out of. In the sacred and holy name of Jesus Christ. Amen.
