3/20/23 House Bill 2002 1:02pm

First overriding issue, if the TAXPAYERS fund this, we want COMPLETE TRANSPARENCY. Transparency is something that our Oregon government has refused to abide by and became non-existent under Brown. All we hear are the constant assault of demands for MORE MONEY, BUT ZERO ACCOUNTING OF THE BILLIONS OUR BLOATED GOVERNMENT TAKES FROM US.

1) Legalize hiding whether a baby was born alive or dead! Why would they want to hide this? Because they are delivering LIVE babies and murdering them. Someone needs to force them to admit about how they carve up these born babies and fetuses and sell their parts their organs. This IS happening. And when it is revealed, as it should be, every single time they SELL baby parts, we, as taxpayers deserve to know that this is what we are forced to pay for.

2) Prohibit abortionist from providing information about minor's abortion to their parents. Wrong, not matter how they try to spin it. THE STATE DID NOT GIVE BIRTH TO THAT CHILD. The mother gave birth to the CHILD and the PARENTS raise that child, feed the child, and care for the child's safety and well-being. THE COMMUNISM SHOWN BY THIS BILL IS REPUGNANT. When the child turns 18, the child is of age to make the decision without parental consent. Not before.

3) Expand the use of TAXPAYER DOLLARS FOR PERMANENT GENDER ALTERING PROCEDURES. Wrong. This is just more of the same government overreach. This IS NOT healthcare. This IS CHILD MUTILATION. Again, no minor children should be mutilated before age 18. And I am repulsed that this is even being debated. In Oregon OHSU has signed up to do surgeries and they need to be prohibited from doing so. As it is OHSU is fleecing us blind and adding this horror to their menu is ANOTHER ASSAULT ON TAXPAYERS, on top of mutilating children before their age of consent.

As a lifelong Oregonian I am sickened and disgusted at what our government leaders are forcing on us, and demanding we pay for.

Teachers in schools, we pay for, are grooming the children, and teaching them about sex, and perversion they are pushing, STARTING IN KINDERGARTEN, stealing their innocence, their childhoods. I despise the filthy public education system in Oregon for this and look forward to a time when these teachers who DO NOT TEACH, as we can see from the rock bottom test scores, should not be in our schools THAT WE PAY FOR. They should be arrested for their crimes against children. As for

transparency we demand stringent background checks of teachers, video cameras in classrooms [these are the same people that demanded body cameras on police, so they should be fine with that], and need to purge the pedophiles in their ranks. On the federal level we need to take 50% of the taxpayer money we give now to Planned Parenthood and give that money to Pro Life facilities. You know the Pro Life facilities that ANTIFA vandalized and torched.
