

Submitter: Lamont Wolverton
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This infringement to the Oregon and US Constitution is over reaching in it's structure and content. There are no Grandfather clauses in the bill which will impact my ability to defend myself and be a huge financial loss for gun collectors. I cannot comply due to limited gunsmith access and I cannot legally deliver the firearm to the gunsmith, this is a very poorly written bill. Do not vote out our 2A freedoms and the right to collect and defend ourselves and families. VOTE NO!
