

Submitter: Joseph Ferguson

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Natural
Resources

Measure: SB5509

I've been an Oregon resident since birth i 1946 and have hunted and fished since an early age. I strongly support funding for ODFW's Water Program including Policy Option Packages 102 and 107. Clean water, fish and wildlife are among the values which have always made Oregon a great place to live and raise families. ODFW must have the funding to monitor stream temperatures, and to participate in the planning and evaluation of impacts to our clean water, an invaluable PUBLIC resource for fish and wildlife, and especially our endangered fish populations.
