

Submitter: Corina Morrissey

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I oppose HB 2002. Oregonians' right to parent their own children must not be infringed. Access to abortion, sterilization, dangerous hormones, and life altering surgery without parental consent and before finding out the reasons for a child's gender confusion is unreasonable. Research shows most dyphoric feelings resolve by themselves (80-90%).
