

Submitter: Diane Linden

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am extremely opposed to this bill that involves harming our children, who are not even old enough to fully understand this life changing decision in which they will probably regret later. Not only is this so wrong for the child, but to take this action without the minor's parent's knowledge is beyond my comprehension. It is evil.
