

Submitter: Samuel Blanchard
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

This bill most certainly represents an infringement on my Constitutional right under the 2nd Amendment. In the process of securing an Oregon CHL I submitted my biometric data, proof of my firearms training and community references to my local Sheriff. He did the necessary background search and approved my license.

How about concentrating your efforts on those irresponsible individuals who illegally obtain and carry firearms without a license and cause murder and mayhem in our communities?

Crooks will never obey the laws, no matter how many you pass, because disobeying the law is in their job description.

Nothing you currently propose will make any difference to some maniac intent on harm.

Better to have someone like me there on scene to try and make a difference.

Never forget: when seconds count.....the police are only minutes away.
