

Submitter: Katherine Mechling

On Behalf Of: self

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

As a physician practicing here for the last 30 years, I have learned it is best to respect and work with mother nature.

Change can be hard, but the need for public and environmental good outweighs the potential inconveniences of the few opposed to HB3464.

In my opinion, HB3464 is only a start. The Beaver State should be the leader of reaping the benefits of busy beavers doing their great works.

The science supporting beaver assisted landscape management is strong.
