

Submitter: Deanna M Cintas

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I fully support this bill and the prohibition of selling or trading of fur products. How fur is obtained is not only a torturous, cruel, and inhumane process, but it is unnecessary. It is time we move away from practices and industries that are harmful to the environment, and the animals in those environments, especially if those animals are victims in the process.
