

Submitter: Lyndell Wilken

On Behalf Of: Myself

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

After taking an interest in Beavers these past several years and reading books like "Eager: Beavers and why the Matter" I have become an advocate whenever given the opportunity. The value of beavers to restoring our wetlands and mitigating drought especially in Eastern Oregon is well worth the effort of passing the bill. The more we can do to support and figure out a way to include Beavers in our environment the better off our future will be. Lyndell Wilken
