

Submitter: Theodore Labbe
On Behalf Of: Urban Greenspaces Institute
Committee: Senate Committee On Housing and Development
Measure: SB1051

On behalf of the Urban Greenspaces Institute, I urge you to reject SB 1051. This bill proposes to streamline expansions of urban growth boundaries in the name of expanding housing options. This proposed change would do nothing to address our various housing crises and is a distraction from the type of investments and change we need to house Oregonians.

Thank you.
