

Submitter: allister Stone

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1076

As a ED MD who takes care of the whole community this will be a burden that the hospital and I cannot bear. People come to the emergency department for many reasons, some of them medical.. To have to be responsible for them and find housing for them is something I do not have the resources to do, nor does the state or they would do it. I can imagine where it will be difficult to transfer a homeless patient who needs more care than my hospital can provide because I cannot tell what the final housing situation will be for the patient AFTER the life saving transfer.
