Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3232

This bill will improve joint-state fisheries management by restoring concurrent Columbia River fisheries policy between the Fish Commissions of Oregon and Washington. Working in-concert with other policy commitments from both shores of the Columbia River that encourage mark-selective fishing techniques, passage of this bill will advance wild salmon recovery, increase sustainable fishing opportunities, and improve the resiliency of Oregon's rural fishing economies.
