On Behalf Of: Responsible gun owners  
Committee: House Committee On Judiciary  
Measure: HB2007

Again this bill should be removed. The people that have a concealed carry permit have been thru the background checks and training and have been for with in letting our elected officers know that they carry not only to protect themselves but would most likely protect another person from harm. It is proven that an arm society is safer. If some of the teachers had been carrying a firearm then the loss of life from the shootings at the schools and public. The issue is why we're those people allowed to attain a firearm. If they want in a public area with a gun there is not a lot a person can do. How about funding the mental system to take care of these people as they cannot be in there right mind. Stop the drugs the government is supplying to our kids. Please vote against this bill.
