

Submitter: Kim Rollins

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I oppose HB 2006.

Many persons younger than 21 years of age are responsible and able to own and use firearms safely.

I have owned and safely used firearms for 65 years of my life. My experience started first with training from my dad and grandfathers before owning my first rifle at the age of 7 years old.

Young people have a right of self-defense and should not lose the tools they may need for that defense because of their age. There have been many instances where persons under 21 years of age armed with a firearm have stopped violent attacks with most of these cases having no shots fired.

It is wrong to punish responsible young folks based solely on their age.
