On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2990

I support HB 2990, Community Resilience Hubs. As climate change continues to create disasters, community hubs to support those affected by these disasters is essential for recovery at the local level and building resilience on the larger scale. We learned in the Rogue Valley from 2020 how desperately we need such facilities, and we need to prepare for future natural disasters.
