Committee: House Committee On Rules

Measure: HB3509

I strongly oppose rank choice voting as it is a confusing method of voting, does not entice more participants and the end result is confusing and unsettling as to the trust in the outcome. We need simple straight forward ballots that are secure, elections held with integrity, no sense of anyone being able to manipulate the results. This rank choice voting does not foster trust, increases confusion. I have friends in states that use this, they do not like it at all.
