

Submitter: Dena Youngblood
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB320

I support SB320. I believe that first time offenders that are model prisoners should be able to earn a reduction in their sentencing with Good time reduction. We should be rewarding people for good behavior. I believe most prisoners that are first time offenders make a one time bad decision & should be held responsible for that one time mistake but sentencing them to 10, 15, 25 years with no option of good time is not the answer. This shouldn't be a One Strike your out state. We should be rewarding them when they show they know how to stay out of trouble & willing to do work, counseling & being a great mentor to other fellow prisoners.
