

Submitter: Tara Peek

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

I usually don't respond to things like this but beavers are just too important. They are a keystone species, and Oregon's state animal for goodness sake!! Let's remove them from the predator list, and manage them like we do other wildlife species. Please, we can make an impact in our small corner of the world for the better.
