

Submitter: Sherrill Kennedy

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I'm extremely concerned with regards to this latest -3 amendment proposal. It is time to do the right thing & that is the full factory farm moratorium, SB 85-1. When we do what is right we do it one hundred percent. We don't go willy nilly half way. It is proven over & over again that factory farms are not an asset to the community. I do not care how much money a factory farm may yield the owners it is still bad for the community. And I believe it is imperative we take care of our communities. In fact, we should be helping each other.....we should not allow ANYTHING that would hinder any area. Please give this very serious consideration.
