

Submitter: Lawrence Crook
On Behalf Of: NRA
Committee: House Committee On Judiciary
Measure: HB2005

Thank you for hearing me, I was raised in Oregon since 1951 where my father fought in WWII as a bombardier in the 40s. Father taught me that we have legal God given rights. Our society has surely gone away with all these shootings, truly sad. But our liberties are at stake, due to these activities. I was brought up hunting from the age of 12, and feel all our freedoms are dwindling away with the sort of people allowed to change the minds of those about the killings. Our 2nd amendment is at stake because when our freedoms are gone are we going to be better because of it. My nephew lives in Chicago where there has been shootings every day and congress hasn't done a thing. Taking away our freedoms won't change anything, except turn us into communist China. Thank you and God bless.
