

Submitter: Gregory Fishback  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3513

As a FFL, Firearms Instructor and Gunsmith, I want to commend the authors of this bill. Establishing a process for safe storage of firearms for households with at-risk individuals is very much needed. I take it upon myself to instruct in the use of safe storage and suicide prevention (leveraging the state of Utah's instructional material) during all CHL classes I teach and anything we do in the state of Oregon to establish content requirements beyond that of a "basic gun safety class given by an NRA instructor" is highly needed before individuals should carry a lethal defense tool in public places.
