

Submitter: Breyanna Tiessen

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I support this bill because with the state of our country, Oregon needs to further it's dedication to providing abortion services and gender affirming care to those it may not be available for and for those here. Time and again research and proven science has shown how crucial these types of healthcare are to people's well-being.
