Hello,

I am a grandmother and former teacher. My husband and I were hunters and competed in trapshooting so I am not opposed to guns used properly and safely. I cannot believe how this country has allowed the NRA and Big Money run the gun dialogue. When will common sense prevail? I ask each one of you to ask yourselves how you would feel if your child or family member was the victim of this nonsense we have allowed to continue. I heard an ad on TV saying this law would punish law abiding gun owners. They have succumbed to the fear put out by NRA and others! What about the victims and their families? Don't they have a right to live, also? Case closed!
