

Submitter: jeffrey denson

On Behalf Of: Dalton Management

Committee: Senate Committee On Housing and Development

Measure: SB611

Please stop burdening property owners and managers with poor planning and failed systems at the city and state level. Focus instead on decreasing road blocks to development. Never mind the silly changes that allow plexes in traditional single family residences. You have to allow developers to build large multifamily projects. Talk to the developers and find what gets in their way.
