

Submitter: Erion Moore II

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3309

Hello,

I think it is important to have more accessible units in multifamily housing developed under Housing and Community Services Department because as the population grows and older communities age, there is a concern that they are not able to be safe or self sufficient in their homes. Also, any accessible item/modification and home always benefits the next person. Finally, landlords and property managers are making it very difficult for residents to get reasonable accommodations.

Thank you
