

Submitter: Jennifer Perry

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

As a 50 year resident of Oregon I am opposed to tax payer funded abortion and sex change operations with my hard earned wage and state tax on that wage. Because tax payers are solely responsible for monetary support of this bill I have religious objection to the use of my hard earned money supporting these procedures. Neither of these are affirming medical care, one being the death of a child the other being the permanent disfigurement of a potential child without parental consent. I don not support this.
