

Submitter: Robert Crook  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

This is not good for Oregon. It is a feel good bill that I would hope gets turned down. I am an avid fly tyer and fly fisherman as well as a trapper and hunter. This would not only effect me and like minded individuals it will also effect many others who us nature's most renewable resource, fur is as green as you can get. I would hope that the ideas of a few does not effect the thousands that us fur for arts and crafts and other hobby. It is a poor bill and not good for Oregon or Oregonians
