On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Opposition to HB2007

Dear: Committee members'

I am writing to you in regards to HB2007. This is a very bad bill and needs to be ended NOW!! Restricting or even ending where people can legally carry and making felons out of law abiding citizens is not going to prevent anything or make anyone safer. In fact it will make people less safe. Gun free zones are just a red flag that everyone in them is a vulnerable , easy target. Criminals do not follow gun laws or any law for that matter, they never have and never will. We do not need more gun laws, in fact we need less. Our state is number one in the USA for sex trafficking as well as crime and lawlessness in general has skyrocketed. And yet, you wanna restrict where law abiding citizens can carry? Think of all the women in your life, would you want them left defenseless? What if something bad happened to them that could have been stopped or prevented if only they had a way to protect themselves. I have had several instances where I was so glad that I had my firearm on me. It is my constitutionally protected right to defend myself and to not be a victim. Please do not restrict my right to do so. My life and safety matters too. I demand that you end this bill now as well as the other bad gun bills that go against our constitutionally protected rights. END this attack on our rights now!! This bill is way wrong!!
