

Submitter: Briley Culver
On Behalf Of: The Oregon Army National Guard
Committee: Senate Committee On Finance and Revenue
Measure: SB540

As a service member of almost 4 years in the Oregon Army National Guard this bill will further assist us to recoup and remain financially stable after our service period ends. As many know a large number of homeless population are veterans, those veterans cannot speak their mind solely due to them feeling as if they can't. That's why on my part as a current service member SB540 will help us with not only fearing homelessness, it will continue to make us financially more capable, every penny counts towards doctors, food, transportation and most importantly a place to stay. I ask Senator Sollman and the members of the senate committee on finance and revenue to please heed my testimony and ultimately realize that the bill will further assist and support the troops who went overseas, went away from family and for those who had loved ones passed away for this country in honor. Thank you for your time, and thank you for fighting for us troops.
