

Submitter: Rodney Tombleson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB320

Guns are NOT the reason we have so much crime. The principle reason is habitual criminals who are released into the public, sometimes earlier than sentencing called for. these habitual criminals often reoffend with hours or days of release. There is no reason to endanger the public by early release of career "bad guys." Stop fidgiting about firearms, and punish those who commit crimes!
