Measure: HB3390

I strongly oppose this bill. There is no need to do away with what we have done since our forefathers founded this country. I promise that anyone who supports this bill has never spent a day with someone that partakes in this way of life. That is exactly what it is, a way of life that so many of us care deeply about and want to carry on for many more generations. I can also promise you that the people that partake in this lifestyle care more about the land, animals and environment than anyone who is supporting this bill. This will have a trickle effect on many things in the economy and biological consequences if it were to pass.
