

Submitter: Tim Blair

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

HB 2005 is unconstitutional. This would violate the second amendment of the constitution as well as the Bill of Rights. It has been legal from the beginning of the country for someone to make a P.M.F. for around two hundred years, there has been little to no issue with law abiding citizens making a firearm for their self. Passing HB 2005 could cause irreparable harm to a person who has followed the law that has been around for two hundred years.
