Measure: HB2007

Public buildings should feel safe. Allowing anyone with a concealed carry permit to carry a gun in a public space threatens my security and peace of mind. We passed a law to protect state buildings and schools. Why should local governments not have the same option for their buildings? We don't need vigilantes to protect us; our communities have assigned that to trained members of our community. Vote yes on HB 2007 and bring safety back to our local community buildings and grounds.
