Measure: HB2005

I strongly oppose HB 2005. I was born and raised in Oregon. I am retired military and understand that our 2nd Amendment was constructed to ensure that the citizens retain the power to fight dictatorial oppression and foreign invasion. At some point in the future we may need to manufacture our own arms and fight for our survival. This attempt to stop "ghost guns" may be well intended but I simply can't take it seriously after watching our leadership watching leadership reduce law enforcement, restrict their ability to arrest criminals, allow the year long attacks on law enforcement, turn a blind eye to looting and destruction of businesses. Look at the businesses shutting their doors and leaving Portland and the state in general. I have no confidence in the current leadership or their ability to govern following the influx of cartel drug gangs in our state. The decriminalization of hard drugs with promises of treatment programs that never materialized. It says "Shall not be infringed for a reason".
