

Submitter: Jacob Layer

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

HB 2006 seeks to make illegal gun ownership by anyone under 21 years of age. Well that's arbitrary. Those under 21 can give informed consent for medical treatment, abortion, and mental health. And sometimes without parental consent. But they shouldn't be trusted to 'keep and bear' arms?

And where is the data in OR showing substantial harm from under-21 folks owning and using firearms? It seems like a solution looking for a problem.

And then there's the potential for this to be abused as a 'gut-and-stuff' bill because of the relating clause. That nonsense is sneaky, deceitful lying.

This is unconstitutional on its face and should be stopped in committee.

Thank you for your attention.
