

Submitter: Tony Crow
On Behalf Of: Oregon State Trappers
Committee: House Committee On Judiciary
Measure: HB3390

Dear legislators,

I am writing to you as a concerned trapper from Minnesota, in support of my fellow sportsman of Oregon. The fur industry is constantly attacked based off of feelings from individuals that do not know what it takes to manage wildlife. Stopping the sale of fur will not stop disease, starvation nor predation of domestic and wild animals from happening within any environment. Sportsman nation wide take wildlife management seriously.

Sincerely,
A Minnesota Trapper
Tony Crow
